EXPERIENCE

Art House Co-op | Brooklyn, NY

Curator/Manager, March 2011 – April 2014

As part of a small team, I helped run various interactive, crowdsourced art projects, primarily The Sketchbook Project, a traveling exhibition of artists' sketchbooks from around the world. I also managed The Brooklyn Art Library, our exhibition space, library and storefront. My responsibilities included library operation, social media content management, web store management, graphic design, press contact, event coordination and curation, and overseeing our collection of over 30,000 sketchbooks.

T Salon | New York, NY

Graphic Designer, October 2009 – March 2011

I served as part art director, part marketing director, part production manager for a boutique tea company located in New York and Los Angeles. I designed catalogs, custom labels, marketing collateral and promotional material. I maintained our website, created an e-newsletter, screen graphics and signage for wholesale accounts, retail locations and events.

The Madison Design Group | Bethesda, MD

Graphic Designer, October 2005–September 2009

I designed various print and web collateral such as identity systems, magazines, brochures, annual reports, invitations, e-newsletters and websites. I managed projects, worked with vendors and oversaw production for corporate and non-profit clients.
